More Jobs
Better Rights

》More Jobs

1. Continue to push for more public works to create more employment opportunities
2. Continue to persuade the government to adopt a diversified approach in raising funding for essential infrastructure including the issuance of bonds for infrastructure projects
3. Continue to promote closer cooperation between engineering sectors in Hong Kong and the Mainland so as to facilitate entry of Hong Kong Engineers into the Mainland market under CEPA
4. Continue to urge the government to expedite the development of logistics infrastructure, environmental engineering and renewable energy applications

》Better Rights

NOTE

1. Continue to fight for establishment of RBSE in legislation and government recognition of R.P.E. to ensure public safety and public health and compliance with professional standards, having successfully achieved approval of RGE in Buildings (Amendment) Bill 2003 at LegCo this year
2. Continue to object to privatisation and corporatisation of government departments
3. Continue to strive for complete training and adequate career development for all young engineers to avoid succession problems in the profession
4. Continue to fight for more representation in government advisory committees and better public recognition of engineers' contributions to the community
5. Fight for the election of the Chief Executive by universal suffrage in 2012 and promote engineers' political awareness to achieve early direct election of all LegCo seats
